

To prevent the further spread of COVID-19 (Request to the residents of Yamaguchi Prefecture)

We would like to ask for your cooperation in the following points to stop the spread of COVID-19.

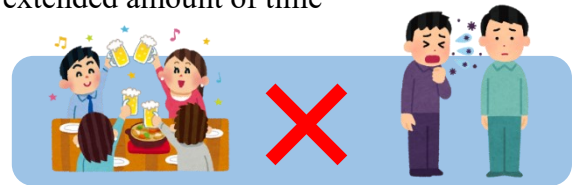

◆ Infection prevention measures

- Wear a mask
- Frequently wash and disinfect your hands
- Practice social distancing
- Disinfect shared spaces (door knobs etc.)
- Ventilate

◆ Be careful of the 'Five scenes with higher risk of infection'

- ① Social gatherings with eating and drinking, etc.
- ② A large number of people and eating and drinking for an extended amount of time
- ③ Conversations without a mask
- ④ Communal living in a small space
- ⑤ Change of location

◆ Vaccination

- Vaccination prevents the onset and severity of the coronavirus, so please consider getting vaccinated with an understanding of the effectiveness of the vaccine and the risks of side effects, etc.
- Even after getting vaccinated, please follow the basic infection prevention measures and act in a way that will not spread the virus.
